- 2002 Rational IE was established
- 2004 VKR Holding bought Rational
- 2007 The first Danish window producer with CE-tested products
- 2011 Rational UK launches Rational AURAPLUS

WINDOWS WITH VISION

Windows and doors for modern and traditional building design

Rational aims to be the leading advisor on the market regarding windows and energy.

Our strong focus has given us the opportunity to participate in several cutting edge Passive Houses, from where we gladly share our experiences.

DOMUS

windows and doors made entirely from wood. DOMUS is especially suited to modern residential construction and renovation of detached houses from the 1960s onwards.

ALDUS

windows and doors made of wood with an exterior aluminium cladding. ALDUS requires a minimum of maintenance and is suited both for new buildings and renovation.

The wood part is identical to that of DOMUS.

PATUS

A high performance timber window in a traditional style. PATUS windows give you the thin glazing bars and internal profiling 'look' to achieve a traditional design and at the same time live up to the highest demands of performance, low-maintenance and long life.

Where traditional design meets modern performance.

PATUS+

windows and doors in a traditional style with an exterior aluminium cladding. PATUS+ requires a minimum of maintenance and is suited both for new buildings and renovation.

The design is identical to PATUS with an additional aluminium cladding.

AURAPLUS

the new, groundbreaking window and door concept where energy, sustainability, security and design form a coherent whole.

Rational - part of a company group

Rational Windows (UK) Ltd. is part of the DOVISTA Group in which DOVISTA A/S is the active parent company.

Through intragroup synergies and distinctive brands, the Group's mission is to be the market leader in Europe in the design, sale and manufacture of windows and doors. The DOVISTA Group currently consists of 9 individual brands, for which sound organic growth is the driver for ongoing expansion.

DOVISTA A/S is owned by the industrial investor VKR Holding, which owns and develops companies that bring daylight, fresh air and a better environment into people's everyday lives. VKR Holding has companies in business areas such as roof windows, vertical windows, thermal solar energy and indoor climate which have around 15,000 employees in more than 40 countries. VKR Holding is owned by the Kann Rasmussen family and its principal shareholder is the VILLUM FOUNDATION.
